ADDRESS TO GRADUATING CLASS

REV. MATTHEW G. MEEHAN, C.Ss.R.

"HAVE A HEART"

As you look up here this afternoon, you see something that is as pretty as a picture. For each nurse in her white dress and with her red roses is surely pretty as a picture. As you look at this picture of beauty and efficiency, you can't help but think of the time years ago when she was a little girl by her mother's knee. And when her mother wouldn't give her what she wanted, she sometimes used to say, "Please mother, have a heart!" And those are the very words we would like to say to her this afternoon, as she steps into the world of 1961 as a graduate nurse, "Please nurse, have a heart!"

Have a heart that loves God and loves your patient. Have a heart that loves self-discipline and strict obedience to every doctor's command. Have a heart that loves learning till the day you die. Have a heart that keeps you soft and warm and kind to all you meet.

You might think it is easy for a nurse to have a heart like that. But it isn't. It isn't easy for her to have a heart when she is sick and tired of the long hours in the smell of ether and the sight of blood, or when as Edith Cavell used to say, "She is upset by the petty jealousies and impatience of those around her." A nurse may easily lose heart then. And do you know what happens when a nurse loses heart? She no longer cares about her own personal development through self-discipline and strict obedience. She no longer cares about her own professional development through new courses each year. She slips into a rut of mediocrity, just going through the motions, and comes to treat each new patient as just another case, just another sickness.

She no longer thinks of her patients as persons, but simply as things like, the Tonsils, the Appendix, the Pneumonia in 219. This terrible temptation to treat people as nameless numbers comes to every nurse—just as it comes to every doctor, priest or nun, whose profession brings them into daily contact with a passing parade of people. It is a terrible temptation to this class of 1961 especially, this first class of the space age, this class of push-button automation times. More than any other class of St. Michael's, from the first five who graduated 67 years ago in 1892 to this present time, they may have to fight hardest to have a warm heart for each human person, so that they may never acquire that horrible thing called, "The Professional Touch" — that cold, impersonal, surface smoothness that spells a nurse without a heart.

A nurse without a heart is bad for the patient, because the patient is only at his best when he is treated as a whole human person. He is not just Tonsils or Appendix or Pneumonia. He is a human being like your own father, a human person made up of soul and body, heart and mind, which all live as one, work as one, and must be treated as one. That is why the medical profession today is insisting on more psychology and more psychiatry in every nurse's training, so she will learn to have a heart for the whole man and not just for that part that seems sick.

A nurse without a heart is also bad for herself. She may have good pay. She may have short hours. She may have good working conditions. But if with all this she doesn't have a heart, she will be lacking that precious something that not only makes her a good nurse but a good woman. And that precious something in the words of Our Holy Father is this: "The perspicacity and finer touch in the delicate problems of life, the fine feeling and delicacy and tact proper to a woman." That is what makes a good nurse, a good woman, having a warm heart for the finer things in life.

When we ask you nurses of this space age of automation to please have a heart, we don't mean just any old kind of heart. We don't mean a heart filled with false kindness or immoral kindness to people. Some nurses do have such false and foolish hearts that would sometimes help the body by hurting the soul. That is the kind of heart that beat in the breast of the last war's Nazi Nurse Irma Grese, the so-called Beastess of Belsen, and in the breast of Irmgard Huber, of the Hadamar Asylum in Germany. They were the nurses who specialized in abortion, in the sterilization of the unfit, and in euthanasia or the so-called mercy murder of the old and sick.

Thank God there are not many nurses like that in Toronto or Ontario or Canada, nurses who would help the body by hurting the soul. But there are some who are greatly tempted to do just that, to help their patient's body by hurting their soul with wrong advice about sterilization and birth control and abortion and drugs. And that is not within jurisdiction. That is God's jurisdiction. And the healthy Canadian nurse has a strong heart for God's jurisdiction, for God's law, for her own conscience, for her patient's conscience, as she vividly remembers her Jeanne Mance and Florence Nightingale pledge in these words:

"I solemnly pledge myself **before God** and this assembly to pass my life in purity—and to prac-

tise my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug."

With this pledge in mind, a first rate nurse on graduation—whether she is engaged to marry or engaged to travel around the world or engaged to generously work at St. Michael's Hospital, her Alma Mater, for at least a year after graduation so that her light may shine at home before it shines abroad, whatever she is engaged to do, a first rate nurse engages herself to have a heart filled with Christ's kindness. Of all people, He really had a heart, a big heart. In everything He did, He had the "personal touch"—not the professional touch. His four biographers wrote these gracious words about Him, "He reached out and touched them—and they were cured."

But it was more than their bodies He touched. He touched their hearts most of all, as you can see in the love they gave back to Him. And no matter how many people He met, He never once became professional with them, even with little children. He always kept it on the personal level. He treated each call for help as a "person-to-person" call. And do you know why? Because in each person He met, He did not see a stranger, He saw Himself as in a mirror—His other self.

That is Christ's secret for every nurse who would have a heart. To take each call on the ward or in the clinic or on private duty as a "person-to-person call". To treat each patient, not as a stranger, but as her other self, just as Christ did. She will find that so much easier to do if she remembers the motto of every nurse and every nun who ever worked at St. Michael's: "Quod minimis mihi Fecisti"—"Whatsoever you do to the least of these little ones, you do unto me!" Then she will have a heart for each patient she meets.

Every nurse worth the name had just such a warm heart. From Fabiola in Rome to Jeanne Mance in Canada, from Florence Nightingale in the Crimean War to the Canadian nurse in the last war, from Edith Cavell of England's glory to Miss Hamilton of Hopkins fame in Baltimore, from the Sisters of St. Joseph, who came from France to dot this land of the Maple Leaf with hospitals in Halifax and Hamilton and Vancouver to the nuns who helped Toronto's Medical Officer, Dr. Norman Allen, to fight the scourge of diphtheria here in 1891, they all had a heart. Because to them nursing was not just a job to be paid for, it was not just a profession to be respected; to them nursing was primarily a crusade of mercy and they themselves were angels of mercy, a happy takeoff from the very first building the Sisters ever used right down on Bond Street called Our Lady of the Angels. That is why their fame reaches into the world sky like the Redstone Rocket that shot Alan Sheppard into outer space, not just because they had brains, not just because they had beauty, but most of all because as nurses they always had a heart.

To you then, our lovely nurses of the space age, we give this wish and prayer:

"May your hands be ever fragrant with the blossoms you now hold!
May your eyes ever sparkle with the stars we see there now!
May your lips ever glow with the sunshine of your smile!
May your heart, like the heart of Our Lady, be as big as yourself!"

Then you will be a good nurse, having what we always want you to have, as we say ever so softly,

"Please — Nurse — Have a Heart!"

NURSING WITH CHRIST

Go forth, a nurse, to help and heal
Like Christ in doing good,
Deem not thy calling great, ideal,
Mere means of livelihood.
This earth is one vast hospital,
A synthesis of pain,
Thy task to help man, one and all,
And thus Christ's blessing gain.
Seek not reward from thoughtless men
For sacred duty done,
Thy Lord Who healed the lepers ten
Was thanked by only one.
Thy hands the loathsome needs must touch;
Yet make thy heart a shrine
Pure as the snow, for man know such
Was Christ, and Christ is thine.
Sealed with the seal of Christ, the King,
Be of thy works the least,
Unstrained to Him thy offering bring
Of healing, like a priest.

A TRIBUTE TO ST MICHAEL'S

Dr. Lawlor Loudon paid tribute to St. Michael's Hospital in presenting a prize in memory of his father, the late Dr. Julian Loudon, chief of medicine and physician to the School of Nursing.

The prize for general proficiency is given in memory of my father, Dr. Julian Loudon, who was Physician-in-Chief of St. Michael's Hospital from 1921 to 1946. He felt that a general all-round proficiency was probably the best standard of excellence in a nurse.

One cannot be proficient in any field without an interest in, and a liking for, that type of work. Similarly, one cannot attain a general all-round proficiency in nursing without a love of nursing itself, and almost inevitably, this must mean a love of one's fellow human beings.

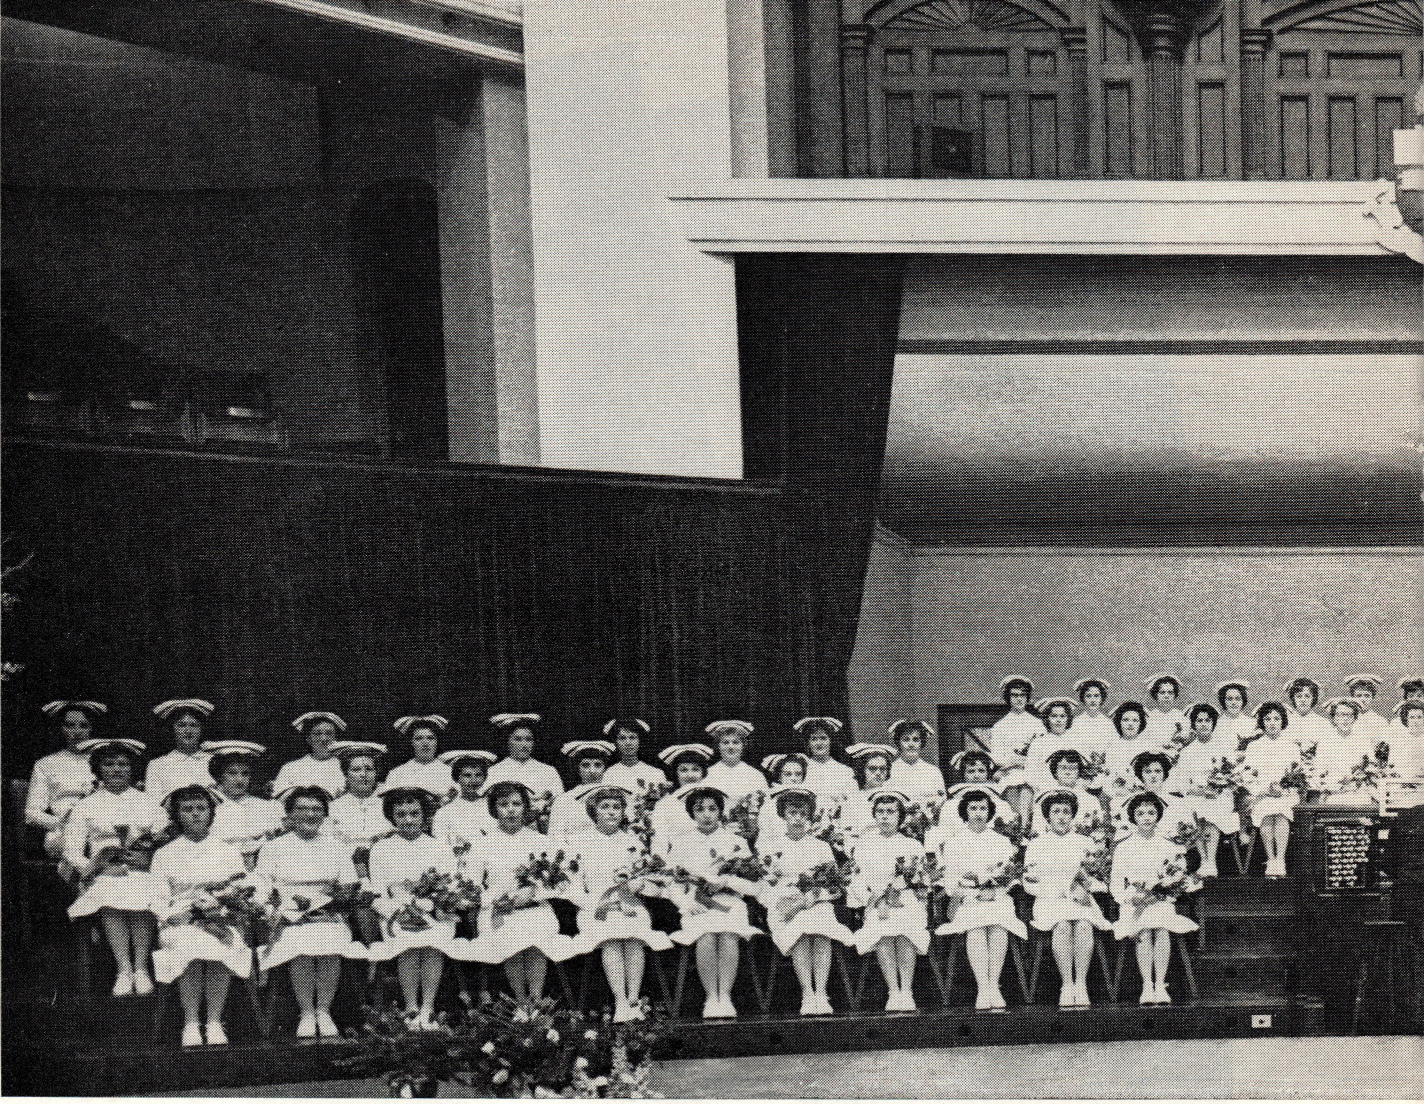

It is in these qualities, I think, that the greatness of St. Michael's Hospital—or of any hospital—is to be truly measured. The important thing is not the number of beds, nor the number of operations performed or treatments given, but the quality of medical care, and the kindness, thoroughness, and Christian charity of which these acts are an expression. For St. Michael's Hospital is not merely a building—not just a pile of bricks in downtown Toronto—but is rather an embodiment of the kindly acts, excellent care, and devoted service, which has been given by those who have been associated with it, and in which all of you, the members of the Graduating Class, now share.

To the winner of this prize, Miss Patricia O'Connell, whose two sisters are also graduates of this great School of Nursing, I should like to offer my sincere congratulations.

CLASS OF 1956 REUNION

Members of the 1956 class of nurses of St. Michael's Hospital had a reunion which opened with a theatre party at O'Keefe Centre. A cocktail party and dinner followed for the graduates and later they were joined by escorts for the dance at the Four Season Motor Motel. Mass, on Sunday morning preceded a communion breakfast in the nurses' residence.

Among the graduates attending, from a distance, are: Miss Evelyn Poloschuck of Vancouver, Miss Virginia Kania of Winnipeg, Miss Margaret Grepe of Montreal, Miss Marion O'Grady of Smooth Rock Falls, Miss Elaine Bray of Copper Cliff, Miss Joan Francis of London, Ont., Miss Rosemary Tangelits of Chatham, Miss Lita Modolo of St. Catharines and Miss Yvonne Fortin of Belleville.

YOUR CROWN

Golden bright is the diadem,
That crowns your work today;
The work that led you through the years,
Along your chosen way.
Each day a jewel of love for God,
Each act a living prayer;
May He still guide you through the years,
And keep you in His care.

News Notes

ST. MICHAEL'S HOSPITAL ANNOUNCES NURSING ASSISTANT COURSE

Miss Ann Ford, R.N., B.Sc., a 1955 graduate of St. Michael's Hospital School of Nursing, Director of Nursing Assistant Course.

A program to prepare nursing assistants is to be conducted by St. Michael's Hospital School of Nursing, beginning in September.

The ten-month course of concentrated theory and practice is designed to prepare the student to write the provincial examination, success in which will qualify her for registration with the Ontario Department of Health as a Certified Nursing Assistant, giving bedside care as a member of the nursing team.

The minimum educational requirement for admission to the course is Grade VIII (Ontario), but preference will be given to applicants with higher qualifications. Applicants must be at least eighteen years of age, in good health, and desirous of serving the sick in the hospital or the home.

Applicants will receive complete uniforms; they will follow a five day schedule, Monday through Friday; they will be paid $60.00 per month, and will live at home.

The program will in no way affect the traditional diploma program now conducted by St. Michael's School of Nursing which leads to the R.N. The Nursing Assistant Program will be conducted independently, under the direction of Miss Ann Ford, R.N., B.Sc., and two qualified instructors. Thirty students will be admitted to the first class, to begin September 5, 1961.

Application may be made to: The Director, School of Nursing, St. Michael's Hospital.

CONGRATULATIONS

To Miss Diana Graham who received her Bachelor of Science degree, summa cum laude, at the recent convocation of the University of Ottawa.

Miss Graham was awarded the University Rectors Medal for highest standing in nursing education. She was graduated from St. Michael's School of Nursing in 1959 and was the recipient of the Graduate staff nurses' prize for efficiency in nursing.

APRIL NEWS RETURNED

Miss Judith Mulvihill, 262 Powell Ave., Ottawa.
Miss Marie McEnaney, 51 Alexander St., Toronto.
Mrs. W. McAuliffe, 357 Rosedale Blvd., Windsor.
Miss Mary Simmons, Suit 304, 105-23 Ave., S.W., Calgary, Alta.

Anyone knowing the current address for the above please communicate with Grace Murphy, Nurses' Residence, St. Michael's Hospital, EMpire 2-4461, Local 648.

HOW OLD ARE YOU?

"Age is a quality of mind,
If you have left your dreams behind.
If hope is cold;
If you no longer look ahead,
If your ambition's fires are dead,
Then you are old.
But if from life you take the best,
And if in life you keep the jest,
If love you hold;
No matter how the years go by
No matter how the birthdays fly,
You are not old."

IN MEMORIAM

Sister Carmela

Sorrow came to St. Michael's Hospital on May 27th, Sister Carmela died.

The sense of loss was everywhere—a vacant place in the chapel; a friend on duty, absent; a familiar figure in the corridors, missing.

What can be said in fitting tribute to Sister Carmela? Her church, her community, her hospital were her life.

All of her religious life, except the 6 years as Superior of Our Lady of Mercy Hospital, was spent at St. Michael's and her dedicated service is part and parcel of the story of the St. Michael's we know today.

To St. Michael's successive Superiors, she was a trusted councillor; to her Sisters in Christ, a com-

panion and helpmate; and to the nurses, a friend and adviser.

Let us remember Sister Carmela where remembrance is best, in our prayers.

†

Anne Hayes Sullivan died on June 5th after a long illness. She was born and educated in Toronto and was graduated from St. Michael's Hospital School of Nursing in 1915. Her professional life was spent in private duty nursing.

The funeral and mass was offered in St. Leo's Church.

To her daughter, sons and sister, Beryl Hayes, who is also a St. Michael's graduate, our sincere sympathy and a remembrance of our fellow Alumna in our prayers.

†

Clara Beall, a 1927 graduate of St. Michael's, died suddenly in Toronto on June 9th.

Clara was born in Orillia and educated there and in Toronto. Her professional life was spent in Toronto and New York where she gave generously of herself.

She is survived by her mother and sister to whom we extend our sincere sympathy.

†

Helen Pewtress Robinson died in Calgary General Hospital on June 8th, where she had been ill for some time.

Helen was born in Cornwall and educated at Hatfield Hall in Cobourg. She was graduated from St. Michael's Hospital School of Nursing in 1941. Following her marriage she lived in Toronto and Trenton and later in Calgary.

She is survived by her husband, a son and daughter, her parents and a sister. To all our sincere sympathy.

†

Ida McQuillan, a 1914 graduate of St. Michael's Hospital, died suddenly in Guelph on May 11th.

Ida was born and educated in Guelph. Following graduation from St. Michael's her professional life was spent in private duty nursing in Toronto and New York. She had lived in Guelph for the last few years.

The funeral took place from her home to the Church of Our Lady.

To her sister Kitty, also a St. Michael's graduate, and her family our sincere sympathy and a remembrance of Ida in our prayers.

†

Gertrude Patton graduated from St. Michael's School of Nursing in 1912, died at St. Joseph's Hospital on June 4th.

Gertrude was born in Toronto. Following graduation from St. Michael's she did private duty and was later on the staff of Our Lady of Mercy Hospital.

The funeral mass was offered in Our Lady of Lourdes Church.

Our sympathy to her sister and a remembrance of Gertrude in our prayers.

OUR SYMPATHY TO:

Sister Florecita on the death of her mother.

Ann McIntosh O'Brien '54 on the death of her sister.

Margaret Dunn Coady '51, Elizabeth Dunn Hart '55, and Dr. Arthur Dunn on the death of their father.

Frances Lummiss Thompson '51 and Marguerite Lummiss Macdonnell '57 on the death of their father.

Dr. H. Gibson Hall on the death of his father.

Rev. W. B. Firth and Kathleen Firth Watt '43 on the death of their mother.

Mary Madigan McDevitt '20 on the death of her mother.

Carolyn Mottola '59 on the death of her mother.

Beryl Hayes '12 on the death of her sister.

Mary Carty '48 and Maureen Carty Davis '53 on the death of their uncle.

Mary Simons '12 on the death of her brother.

Audrey Kearns on the death of her sister-in-law.

Ethel Crocker on the death of her sister Barbara.
